- TailwindCSS
- Daisy Ui
- Zustand

FrameWorks

- ReactJs
- Vite
- NextJs
- NodeJs
- ExpressJs

OLASIMBO OLAJUWON

FULL STACK DEVELOPER

I'm a **Full Stack Developer** with a strong foundation across the stack, but my true expertise lies in the **front-end**. I specialize in crafting sleek, responsive, and interactive user interfaces that bring ideas to life. While I can handle backend logic and database architecture, I'm most passionate about building engaging front-end experiences that connect users seamlessly to the technology behind them.

EXPERIENCE

CONTRACT WEB DEVELOPER AT ORVYNMEDIA/REMOTE
April 2025 – Present.

- Developed and deployed custom websites tailored to client needs, ensuring functionality, responsiveness, and scalability.
- Collaborated with brands and startups to translate ideas into user-friendly platforms that blend innovative design with strong technical execution.
- Configured and optimized web solutions to meet each client's unique requirements, improving performance and overall user experience.

FRONT END INTERN AT TECHINATORS/REMOTE
May 2023 – Oct 2024

- Built and refined responsive user interfaces that improved usability and enhanced the overall user experience.
- Actively learned and applied new front-end technologies, contributing to fast-paced project development.
- Trained and mentored new recruits on the basics of front-end development, improving onboarding and team efficiency.

PROJECTS
