PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER | ORVYN MEDIA **|** APRIL 2025 TO PRESENT

- Optimize site speed with lazy loading, code splitting and caching, cutting load times to under 2s and boosting engagement by 30%+.
- Elevate SEO through semantic HTML, optimized metadata and clean structure, driving higher Google rankings and increased organic traffic.
- Improve website performance with React hooks (useMemo, useCallback) reducing rerenders for smoother navigation and stronger conversions.
- Integrate Paystack API for seamless e-commerce payments, reducing failed transactions and improving checkout success rates.
- Collaborate with stakeholders to align technical builds with business goals, ensuring projects ship on time and deliver measurable growth.
- Build custom dashboards with React + Recharts, giving clients real-time visibility into sites, revenue and customer trends.

FRONTEND DEVELOPER INTERN | TECHINNATORS | DECEMBER 2023 TO NOVEMBER 2024

- Collaborated with a cross-functional team of developers and product managers to ship features that improved user experience, contributing to early-stage product growth.
- Wrote clean, reusable code in React, TypeScript, and TailwindCSS, helping to reduce development time by 20% on key components.
- Assisted in bug fixing, testing, and code reviews, strengthening team workflows and ensuring higher-quality releases.

- Gained hands-on experience with version control (Git/GitHub) and Agile methodologies, aligning development with business goals in a fast-paced startup environment.

EDUCATION AND CREDENTIALS

BACHELOR OF TECHNOLOGY (B.TECH.) IN QUANTITY SURVEYING | APRIL 2024
- Federal University of Technology – Akure, Nigeria
